feel like you're missing some of the big picture?

With Laing & Buisson's healthcare business newsletters you'll never feel that way.

Laing & Buisson's duo of highly respected business newsletters, **Community Care Market news** and **Healthcare Market news** have kept care professionals abreast of events in the fast-paced healthcare sector for well over a decade.

With in-depth financial coverage of the most important independent operators in their respective fields of social care and acute care, these journals are the perfect companion to Laing's **Healthcare Market Review** as they provide the best way in which to keep ahead of the crowd month-by-month when it comes to new developments, acquisitions, legislative moves and commissioning practice.

Each newsletter contains unique data tables populated with the very latest statistics gathered by the UK's leading healthcare intelligence agency. These list the current market presence of the country's independent hospitals, long term care groups, mental health providers and homecare operators, as well as intelligence gathering together all major healthcare transactions dating back over the past three years.

Subscription to either title includes ten copies a year alongside access to a unique online, fully searchable archive containing specialist coverage dating back over ten years - forming without doubt one of the UK's best resources of independent healthcare intelligence today.
