

LaingBuisson launches real-time care home benchmarking and performance database

London, 24 January 2019

Leading healthcare market intelligence provider, LaingBuisson, today launches *CareMonitor*, its new real-time benchmarking database of fundamental quality and safety standards for Care Homes and Care Home Groups.

CareMonitor offers real-time access to the CQC's Fundamental Standards of Quality and Safety data in all registered Care Homes and Care Home Groups. Comprising over 17,000 care home records, *CareMonitor* allows users to run league tables of providers, benchmark provider portfolios against specific providers as well as the whole market and look at rating trends. These searches can also be exported to JPEG charts and detailed Excel spreadsheets, enabling further analysis of the data.

CareMonitor is an essential tool for decision makers involved in the investment in, or the development, regulation, management and marketing of care services.

CareMonitor takes data from thousands of care home inspection results, provides real-time analysis, and presents them in an easy-to-read and easy-to-use format. An entire portfolio's compliance can be analysed and compared against sector benchmarks.

Henry Elphick, Chief Executive said:

"We believe that CareMonitor will be an invaluable tool for anyone working in or otherwise interested in the care sector, whether as a provider, an investor, commissioner, property developer or consultant, academic, or advisor. Its real-time functionality ensures research, marketing and strategic planning is informed by robust, up-to-date information and offers a one-stop data solution for the care home market."

About LaingBuisson

LaingBuisson, the UK's leading healthcare market intelligence provider, has been serving clients for over 30 years, providing insight, data and analysis on health and social care market structures, policy and strategy. The Company's products and services are based on proprietary primary data and we are the chosen provider of data on the independent healthcare sector to the Office for National Statistics.

The company advises healthcare providers, commissioners, payors, investors and regulators, helping them to understand their markets, access their customers, increase profitability and deliver better quality care through market intelligence, consulting and data solutions.

For more information, please visit our website at www.laingbuisson.com.

About *CareMonitor*

CareMonitor is part of LaingBuisson's new iLaingBuisson portal of cloud-based data solutions. iLaingBuisson gives access to a wealth of data that LaingBuisson aggregates, cleanses, structures and adds to from proprietary sources.
