

PRIVATE EQUITY IN UK HEALTHCARE MARKET REPORT

THIRD EDITION

Investors remain attracted to UK healthcare

The third edition of LaingBuisson's mini-report into the role of Private Equity in UK Healthcare covers a wide range of topics and presents the latest intelligence in who owns what, and why.

It identifies over 150 portfolio companies across healthcare owned by PE in the UK, and notes that the profile of that portfolio has changed with a broader number of sub-markets represented, including software, pharma services, veterinary and fertility.

This magazine-style publication features contributions from a number of professionals working in the field and offers unique data tables unavailable elsewhere - making it a must-read for anyone with an active interest in the sector, or anyone looking to secure funding for their operation.

LaingBuisson has looked at the landscape and the key drivers of the market, and in particular where the focus of investment is and how it has changed in the UK, finding that after a quieter 2015, activity picked up significantly in 2016 and 2017 and has continued to grow by nearly 15% in volume terms for 2018.

With a backdrop of tightening interest rates at some point, a global economic slowdown, trade wars and the end of quantitative easing there remains plenty of dry powder for private equity funds and an economy that is still growing and at full employment.

Healthcare remains a very attractive sector to invest in.

Chosen provider of independent sector healthcare market data to the UK Government ONS

GoPrivate.com and the accompanying GoPrivate Guide help patients to research the options for private self pay treatment in the UK's private hospitals.

GoPrivate.com enables patients to search and compare the "fixed price surgery" packages available and to

submit a request for a quotation for treatment.

The GoPrivate Guide is distributed in magazine format through waiting rooms in 6,000 GP practices, covering 36 million of the population.

- Supplements - including roundtables, costs surveys, policy supplements and infographics
- Weekly news alerts - complete with live links to all stories and features
- Conference discounts - early bird rates for delegate passes

Conference

#1 Networking event

Private Healthcare Summit 2019

The focus of the 2019 Private Healthcare Summit will be "Healthcare innovation: exploiting new technologies to benefit patients, doctors, providers and payors".

Now in its sixth year, the Private Healthcare Summit 2018 will examine how the sector can sharpen its focus on putting the customer first, and exceeding the expectations of patients, doctors, and payors. Previous years' events have attracted around 200 of the country's senior executives from the industry, and were praised for the quality of the speakers, the content and the networking opportunities.

13 June 2019
QEII Centre
London

Patient Acquisition

Find patients online

The key to a successful healthcare business is patient flow. Through our well-established network of online consumer portals and treatment guides, healthcare providers can promote their services directly to patients seeking private treatment or seeking a second opinion from their clinicians.

LaingBuisson's consumer portals attract millions of relevant unique users each year and are aimed at 'active treatment, service or product seekers' in the private healthcare sector - people who are actively seeking a solution to their healthcare needs. The sites show patients how to research a variety of private healthcare services, and to contact healthcare providers direct, or through our Enquiry Forwarding Service. Our clients range from major hospitals across the UK, to small clinics and individual clinicians seeking to attract private patients.
