1	Executive Summary and Highlights
8	1. Market
8	1.1 Definition, scope and data sources
8	1.1.1 Definition and scope
11	1.1.2 Data sources
11	1.2 Market size
11	1.2.1 Market value
13	1.2.2 Market volume – service users
14	1.3 Market growth
15	1.3.1 Market value growth
18	1.3.1.1 Outsourcing trends
20	1.3.2 Market volume growth
20	1.3.2.1 Residential settings
24	1.3.2.2 Non-residential settings
25	1.3.3 Projections of market value
25	1.3.3.1 Younger adult care homes
26	1.3.3.2 Supported living
27	1.3.3.3 Supported housing
27	1.3.4 Projections of market volume
27	1.4 Market segmentation by support setting
31	1.5 Market segmentation by broad client type
32	1.5.1 Learning disabilities including autistic spectrum disorders
35	1.5.1.1 Underlying demand for learning disability services
36	1.5.1.2 Sub-specialisms – autism spectrum disorders
36	1.5.1.3 Factors affecting future demand for learning disabilities and ASDs
37	1.5.1.4 Market value trends
39	1.5.1.5 Market volume trends
41	1.5.1.6 Prospects for future growth – learning disabilities
44	1.5.2 Mental health needs
46	1.5.2.1 Underlying demand for services for mental health needs
47	1.5.2.4 Market value trends – mental health needs
48	1.5.2.2 Market volume trends – mental health needs

49	1.5.2.3 Prospects for future volume growth – mental health needs
51	1.5.3 Physical disabilities and sensory impairments
54	1.5.3.1 Market volume trends – physical disability and sensory impairment
55	1.5.3.2 Prospects for future volume growth – physical disabilities and sensory impairments
57	1.5.4 ABI aka neuro-rehabilitation
58	1.5.4.1 Sources of funding – ABI
58	1.5.4.2 Causes of ABI and underlying demand
59	1.5.4.3 Patient pathway
60	1.5.4.4 Market volume trends – ABI
61	1.5.4.5 Prospects for future volume growth – ABI
61	1.5.5 Substance misuse
63	1.5.6 Memory and cognition needs
63	1.6 Funding profile
63	1.6.1 Summary funding profile by value and by number of service users
65	1.6.2 Commissioner or consumer-driven market?
67	1.6.3 Reasons for low level of private pay, and exceptions
67	1.6.4 Funding profile trends over time
67	1.7 Customer profiles
67	1.7.1 Demographic profile
67	1.7.2 Non-commodity like
67	1.7.3 Provider polarisation
68	1.7.4 Longevity and stickiness
68	1.8 Demand drivers
68	1.8.1 Demography as the principal driver of medium to long-term expansion of underlying demand
69	1.8.2 Public attitudes
69	1.8.3 Consumer choice
69	1.8.4 Public funding
70	1.8.5 Outsourcing by statutory agencies
70	1.8.6 Supported living demand drivers
70	1.9 Key operational metrics
70	1.9.1 Fees
70	1.9.1.1 Care home fees
74	1.9.1.2 Supported living fees
76	1.9.1.3 Recent fee trends – care homes and supported living
77	1.9.2 Cost differentials between outsourced and local authority in-house services
77	1.9.3 Care home occupancy rates
78	1.9.4 Payroll

80	1.10 Operating models
80	1.10.1 Care homes
81	1.10.2 Supported living
84	1.10.2.1 Supported living in clustered settings and synergies with care homes
84	1.10.2.2 Risk of exposure to rental voids in supported accommodation schemes
84	1.11 Investment models
85	1.12 Performance measures
85	1.12.1 Financial
85	1.12.1.1 Younger adult care homes
87	1.12.1.2 Supported living
87	1.12.2 Quality performance
89	1.12.2.1 Does size matter?
89	1.12.2.2 Leading companies by CQC ratings performance
91	1.13 Supported accommodation – a parallel market
91	1.13.1 Market size
91	1.13.2 Market growth
92	1.13.3 Investors in supported accommodation
93	1.13.4 Business model
94	1.13.4.1 Risks to RSLs and investors
96	1.13.4.2 Risks to supported living providers
96	1.13.4.3 Risks posed by ‘rogue’ supported accommodation stakeholders
97	1.13.4.4 SWOT analysis
99	2. Politics and Regulation
99	2.1 Government policy impact on adult specialist care providers
100	2.2 Public expenditure
100	2.2.1 Younger adult social care services
101	2.2.2 Supported housing – unconstrained by departmental spending limits
101	2.3 Immigration policy and social care staffing
102	2.4 Other government policies – cross-party consensus on non-funding issues
103	2.4.1 Personalisation and self-directed care, Direct Payments and Personal Budgets
103	2.4.2 Integration of health and social care – The Health and Care Act 2022
104	2.4.2.1 Integration of health and social care in Scotland
104	2.4.2.2 Integration of health and social care in Wales
105	2.5 Regulation of adult social care provision
105	2.5.1 England
105	2.5.1.1 Fundamental Standards
106	2.5.1.2 Enforcement
106	2.5.1.3 Scope of regulation – services covered and not covered in England

109	2.5.1.4 CQC market oversight regime – financial stability of hard to replace providers
110	2.5.1.5 CQC's current strategy for regulation – fewer inspections and more focus on data
111	2.5.2 Scotland
111	2.5.3 Wales
112	2.5.4 Northern Ireland
112	2.5.5 Providers' views of regulation
112	2.5.6 CQC inspection backlog
113	2.5.7 Quality ratings
113	2.5.7.1 England
114	2.5.7.2 Scotland
114	2.5.7.3 Wales
115	2.5.7.4 Northern Ireland
115	2.5.8 Regulatory distinction between care homes and supported living
115	2.5.9 Market shaping – councils' duty to promote diversity and quality and to ensure market sustainability
116	2.6 Regulations affecting payroll
116	2.6.1 National Minimum Wage and National Living Wage
118	2.6.1.1 Sleep-ins
118	2.6.1.2 Future NLW upratings
118	2.6.2 Stakeholder pensions
119	2.6.3 Apprenticeship levy
119	2.6.4 Removal of the VAT staff-hire concession in 2009
119	2.6.5 Employers National Insurance hike from April 2025
119	2.6.6 Fair Pay Agreements
120	3. Payors
120	3.1 Public funding
121	3.1.1 Local authority funding sources (for all council services)
122	3.1.2 Historic trends in local authority expenditure on (all) adult social care services
123	3.1.2.1 Trends in local authority expenditure on younger adult social care services
123	3.1.3 Labour government policies on social care funding
124	3.1.3.1 Better Care Fund and Improved Better Care Fund (iBCF)
124	3.1.3.2 Social care precepts
124	3.1.4 Improved reporting of average council-paid fees
124	3.1.5 Social care funding outlook
125	3.1.6 Expansion of supported housing – an exception to tight financial constraints
125	3.2 Local authority market environment
125	3.2.1 Providers view commissioning as sub-scale, understaffed and too focused on price
126	3.2.2 Reliance on 'care calculator' tools

128	3.2.3 Balance of market power between commissioners and providers
130	3.2.4 Personalisation and self-directed care
133	3.2.5 How far can supported living replace residential care?
133	3.2.6 Relative cost of care homes v supported living
135	3.2.7 SWOT analysis
137	3.3 NHS
137	3.4 Private funding
138	4. Workforce
138	4.1 Payroll as share of revenue
142	4.2 Skills for Care national workforce statistics
143	4.2.1 Staff vacancy rates
143	4.2.2 Staff turnover rates
145	4.2.3 Zero-hours contracts
145	4.2.4 Public policy initiatives to support recruitment and retention
147	4.2.5 Immigration and overseas recruitment
148	4.3 Will workforce availability constrain future expansion?
149	5. Market Structure
149	5.1 Market concentration
149	5.1.1 Residential and non-residential services combined
153	5.1.2 Residential care
160	5.1.2.1 Learning disability care homes – market concentration and leading providers
161	5.1.2.2 Mental health care homes – market concentration and leading providers' shares
162	5.1.2.3 Physical disability care homes – market concentration and leading providers' shares
163	5.1.2.4 Acquired brain injury (neuro-rehabilitation) market concentration and leading providers' shares
164	5.1.2.5 Substance misuse – market concentration and leading providers' shares
165	5.1.2.6 Younger adult (18 to 64-years-old) care homes and mental health hospitals combined
165	5.2 Consolidation
169	5.3 Balance of for-profit and not-for-profit supply
170	5.4 Capacity turnover – openings and closures
170	5.5 Profile of younger adult care homes
170	5.5.1 Scale of younger adult care homes
172	5.5.2 Age and purpose-built status of younger adult care homes
173	5.6 Entries and exits
173	5.6.1 Recent market entrants
176	5.6.2 Recent market exits
177	5.6.3 Small group and service level entries and exits

177	5.7 Business failures and re-capitalisations
178	5.7.1 Other forced sales among major service providers
178	5.7.2 Housing association counterparties to supported housing investors
178	5.8 Economies of scale and scope
178	5.8.1 At individual service level
178	5.8.2 At group/portfolio level
179	5.9 Brand values unimportant
179	5.10 Absence of intermediation
180	5.11 Barriers to entry
180	5.12 Sources of capital
180	5.12.1 Traditional bank lending
180	5.12.2 Private equity
180	5.12.3 Sale and leaseback
181	5.12.4 High yield bond issues
181	5.12.5 Stock exchange listing, giving access to public funds
181	5.12.6 Islamic funding
182	5.12.7 Capital for supported accommodation
184	6. Investors
184	6.1 Private equity
185	6.2 Property investment
187	6.3 Enterprise values and exit multiples
193	7. Market Potential
193	7.1 Strong fundamentals
193	7.2 Adult specialist care as an investment opportunity
194	7.3 Contiguous market segments
194	7.3.1 Mental health services
195	7.3.2 Children's services
195	7.4 Digital technologies
197	7.5 Absence of transnational dimension
199	8. Appendices
200	Appendix 1 Regulators
202	Appendix 2 Trade Bodies and Associations
206	Appendix 3 History
210	Appendix 4 Major Providers of Adult Specialist Care
227	Appendix 5 Financial Appendix

List of Tables

Table 1.1	Adult specialist care market, by support setting and provider sector, all younger adult (18 to 64-years-old) client types, England and UK projection, 2026/27
Table 1.2	Volume and annualised value of care in residential settings for all younger adult client types ¹ (18 to 64-years-old), England and UK (projected), 2026/27
Table 1.3	Younger adult service users and expenditure per user, all client types and all provider sectors, England, 2026/2027 projection
Table 1.4	Compound average growth rate recorded for all younger adult care services, England, 2007/08–2026/27
Table 1.5	All adult specialist care client groups – Market value by service line younger adult care services for all client types (18 to 64-years-old), all provider sectors and all funding sources, England, 2014/15–2026/27
Table 1.6	Capacity in registered care homes for younger adults (18 to 64-years-old), by provider sector, England, 1990–2026
Table 1.7	Learning disabilities – Market value by service type and provider sector for younger adults (18 to 64-years-old), England, 2026/27 and UK projection
Table 1.8	Learning disabilities – Volume and annualised value of social care services in residential settings for younger adults (18 to 64-years-old), by provider sector, England and UK projection, 2026/27
Table 1.9	Learning disabilities – Illustrative calculation of number of recipients of long-term social care support and expenditure per recipient, younger adults (18 to 64-years-old), all provider sectors, England, 2026/27 projection
Table 1.10	Learning disabilities – Market value by service line younger adult care services (18 to 64-years-old), all provider sectors and all funding sources, England, 2014/15–2026/27
Table 1.11	Learning disabilities – Capacity in registered care homes for younger adults (18 to 64-years-old), England, 1990–2026
Table 1.12	Mental health needs – Market size by service type and provider sector, for younger adults (18 to 64-years-old), England and UK projection, 2026/27
Table 1.13	Mental health needs – Volume and annualised value of social care services in residential settings for younger adults (18 to 64-years-old), by provider sector, England and UK projection, 2026/27
Table 1.14	Mental health needs – Illustrative calculation of number of recipients of long-term social care support and expenditure per recipient (18 to 64-years-old). England, 2026/27 projection
Table 1.15	Mental health needs – Segmental analysis of market value for social care of adults (18 to 64-years-old), all provider sectors and all funding sources, England 2014/15–2026/27
Table 1.16	Mental health needs – Service users in residential settings (occupied beds), all provider sectors and all funding sources, England, 1990–2026

Table 1.17	Physical disabilities and sensory impairments (excluding brain injury rehab) – Adult specialist care market size by service type and provider sector (18 to 64-years-olds), England and UK projection, 2026/27
Table 1.18	Physical disabilities and sensory impairments (excluding brain injury) – Volume and annualised value of services in care homes for younger adults (18 to 64-years-old) by provider sector, England and UK projection, 2026/27
Table 1.19	Physical disabilities and sensory impairments (excluding brain injury) – Illustrative calculation of number of recipients of long-term social care support and expenditure per recipient (18 to 64-years-olds), England, 2026/27 projection
Table 1.20	Physical disabilities and sensory impairments – Capacity in registered care homes for younger adults (18 to 64-years-old), England, 1990–2026
Table 1.21	Physical disabilities and sensory impairments – Segmental analysis of market value at current prices for social care of adults (18 to 64-years-old), all provider sectors and all funding sources, England 2014/15–2026/27
Table 1.22	ABI – Volume and annualised value of social care services in residential settings for younger adults (18 to 64-years-old), by provider sector, England and UK projection, plus UK value of neuro-rehabilitation in the NHS and independent sector, 2026/27
Table 1.23	Substance misuse – Market size by service type and provider sector, England, 2026/27 and UK projection
Table 1.24	Substance misuse – Volume and annualised value of services in care homes and residential rehab facilities, England (by provider sector) and UK (summary), 2026/27
Table 1.25	Memory and cognition needs – Social care market size by service type and provider sector (18 to 64-years-olds), England and UK projection, 2026/27
Table 1.26	Regional variation in council-paid weekly fee rates for care homes without nursing for younger adults (18 to 64-years-old), provided by independent sector care home operators, England, 2025/26
Table 1.27	Supported living services – Regional variation in council-paid hourly fee rates for services provided by independent sector care home operators, England, 2025/26
Table 1.28	Key operating statistics (capacity, occupancy, and prices) for the leading adult specialist care provider Voyage Care, benchmarked against England
Table 1.29	Selected unit cost differentials: outsourced versus local authority in-house provision of social care services, gross of SSMSS council overheads, England, 2024/25
Table 1.30	Payroll costs as a percentage of revenue, major adult specialist care home and supported living groups in the UK, latest accounting period
Table 1.31	Summary of CQC Fundamental Standards overall ratings by provider type for younger adult (18 to 64-years-old) care homes, primary client type: learning disabilities, mental health (including eating disorders), physical disabilities, brain injury rehabilitation and substance misuse, England, July 2026
Table 1.32	League table of adult specialist care home providers, listed in order of their share of homes rated Good or Outstanding, England, July 2026
